HOW PREPARED ARE YOU AND YOUR SUPPLY CHAIN IN THE EVENT OF A DISASTER?

Join us Saturday, Feb 15 at the beautiful Ronald Reagan Presidential Library for a half-day Supply Chain Risk Management Symposium featuring an outstanding, internationally-recognized keynote speaker and a panel discussion with local executives. This program will offer insights for managing both upside and downside risk and for sustaining your supply chain in this tumultuous trade environment. This event (which includes breakfast) is presented by the Ventura and San Fernando Valley Chapters of APICS and local sponsors.

Keynote:

Supply Chain Risks in the Age of Trade Wars – Revisiting Your Sourcing Decisions

presented by Greg Hutchins Sourcing decisions made 5-10 years ago may need to be revisited and recalibrated in today's sourcing environment. Risk is the new lens for sourcing decisions alongside cost, quality, and Lean. Greg will identify the issues, threats, and opportunities associated with tariffs and trade wars with China and other international supply chain partners and, he will emphasize how sourcing is being weaponized for geo-political / economic reasons.
